

Gaskets and Gasket sets suitable for MG | MG (SAIC) | CHEVROLET | OPEL LE2 | LFV | 14E4E | 15E4E

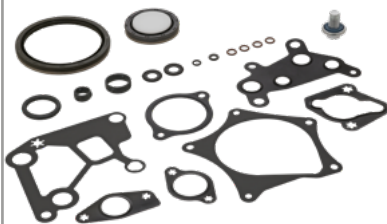

The LE2 engine: powerful and versatile.

The GM LE2 is a 1.4 or 1.5 litre turbo petrol engine. Part of General Motors' Small Gasoline Engine (SGE) family, the LE2 is designed to deliver efficiency and performance in a range of vehicles, including MG hybrid models. In these mild hybrid applications, the engine operates more efficiently, reducing fuel consumption and CO2 emissions. The powertrains in the MG range from 150 hp for the conventional engines, up to 291 hp for the MG HS PHEV and 305 hp for the MG 6 Hybrid.
